

EVEN MORE AT THE HISTORIAL...

// THE MYTHOTHÈQUE

Emotion and education hand-in-hand: this second multimedia space (3 freely accessible rooms) will allow you to understand how the myth of Joan of Arc was created throughout the centuries: there are various angles of approach (the Arts, the Republic, the Church...) and in various forms: films, tablets, virtual historians, displays...

To finish, take advantage of your visit to discover the magnificent Salle des États and the bright Aubigné Chapel in the Archbishop's Palace*. Dating from the 18th century, the chapel was completely renovated in 2014. These rooms can be visited separately from the 1st tour.

*Subject to exceptional closures

EXPERIENCE HISTORY DIFFERENTLY!

At the Joan of Arc Historial, a second trial takes place for Joan of Arc to prove her innocence.

Be both actor and judge in the most famous judicial investigation in Rouen's history! Witnesses, reconstructions and audiovisual effects will take you on an unusual experience which dives into the heart of the 15th century! From her military actions to retake the French throne to her ordeal at the stake, experience an epic and captivating story through the medieval rooms of an historic monument.

Then go and meet those who created her saga and question them in a virtual conversation to discover the thousand faces of our heroine. The myths and legends will no longer be a mystery after your visit. See you in 1456!

A UNIQUE & IMMERSIVE SHOW

Leave your preconceptions at the door: the Joan of Arc Historial is not a traditional museum with classic works or collectibles.

This interactive journey - which was specially created to present our heroine's saga - is a feat of technology and innovation laced with emotion.

From the start of your visit, dive into darkness and watch the stone walls come to life. Projections, screens, 3D maps, the images scroll in front of your eyes and the witnesses of the era will guide you from room to room to ensure you have an unforgettable experience.

AN EXCEPTIONAL SETTING

The Historial is located within the Archbishop's Palace next to the Cathedral: it was the scene of Joan of Arc's sentencing in 1431 and her pardon in 1456.

Completely restored and open to the public for the 1st time since March 2015, this exceptional historic monument in France is the perfect setting for this virtual spectacle. A 12th century Roman crypt, a 13th century Gothic crypt, the lookout tower, etc. - these sites have crossed time and eras and transport us into a unique and prestigious atmosphere.
